**The Porterville Recorder NIE Program** is a valuable tool that enables teachers to help their students succeed inside and outside of the classroom. Studies for the Newspaper Association of America show newspaper usage in the classroom can increase standardized test scores by 10 percent and increase reading proficiency by one to four grade levels.

**Hand Students The Recorder** and watch a new kind of learning begin. The Recorder's NIE program provides the newspaper as a living textbook to south county classrooms. The newspaper is the most up-to-date textbook with timely and relevant stories. The Recorder's NIE program helps students succeed by providing practical application of curriculum objectives while sparking students' interest in the world around them.

**Attention Area Teachers:** please contact Sheila Seaman at 559.784.5000 or email [sseaman@portervillerecorder.com](mailto:sseaman@portervillerecorder.com) to participate in our NIE program.

Thanks to our partnership with local businesses, civic groups, individuals and our subscribers, The Recorder is currently delivering more than 6200 sponsored newspapers to south county schools weekly.
